022-1075-743

## CAREER OBJECTIVE

My goal is to contribute my IT skills and professional experience to Full Stack Developer role which requires an ability to plan, prepare, perform and perfect each task.

## KEY SKILLS

- **Communication:** Proven track record of discussion, planning, designing, often including presentations involving technical and non-technical documentation.
- **Conflict management:** Aptitude toward solving potential conflicts quickly, effectively and with a calm demeanor. The ability to recognise and understand the viewpoints of others.
- **Management skills:** Long history of developing, maintaining and ensuring the team is equipped with the necessary skills to complete the required tasks.
- **Clear forethought:** An ability to visualise the finished product, along with the pathway through which it can be realistically achieved.
- **Personal development:** Committed to keeping up to date with relevant technical skills and have an open mind towards new technologies.

## WEB DEVELOPMENT SKILLS

- *Languages:* HTML5, CSS3, PHP, JavaScript, jQuery
- *Application Servers:* WAMP, MAMP
- *Database Tools:* MySQL, MongoDB
